

BELL AND HOWELL INNOVATIVE SERVICE SOLUTIONS

Your Single-Source Service Provider

Highly-Customizable Service and Support Packages to Solve Your Business's Toughest Challenges

Transform your business toughest challenges into competitive advantages. With an expert service force, state-of-the-art back-office infrastructure, and 24/7/365 service and support, we're standing by and ready to help.

Unrivaled Expertise

From mail inserters to automated robots, our service team has the training, experience and expertise to tailor a solution for your unique business needs.

Product Refurbishing Services

A variety of programs to breathe new life into your worn or outdated equipment to keep your operation running longer and more efficient.

Preventative Maintenance Programs

Cost-effective maintenance programs for any equipment, ensuring your business continues running smoothly. Choose from full-time to resident, on-call service and support to keep your equipment up and running.

Project Management Service

Our dedicated project management teams provide end-to-end service, coordinating concept development, installs, software upgrades and training for a wide-range of technical solutions

OEM Service Solutions

An experienced team coordinating all your OEM requirements, from maintenance and support to operator performance and training.

Parts Management Services

Nationwide parts inventory and logistics management. Maintain ownership of your parts and quickly access them with next-flight-out shipping.

IoT-Enabled Services

We connect to your equipment to monitor performance, remotely diagnose and even perform repairs in real-time.

Extensive Footprint

With more than 800 service personnel and 400 part stocking locations nationwide, we're here for you 24/7/365 and can be at your door in less than two hours for most U.S. addresses.
