

QuickCollect *CT*

Customizable Click-and-Collect Solution for Big Box Retailers

Automated Warehouse Solutions

Quick Cart Retrieval System for Stores of Any Size

With large and heavy products, big box stores and warehouse clubs bring unique challenges to the click-and-collect table.

Introducing: QuickCollect CT, the online order shopping cart retrieval solution, seamlessly integrating into your store's infrastructure.

Key Features & Benefits

Scalable to accommodate any variety of shopping carts, flatbeds or pallets

Durably designed for indoor or outdoor use

Seamlessly integrate into existing store infrastructure

Scalably designed for carts, flatbeds or pallets, the QuickCollect CT provides a swift and simple pickup option for larger orders and products.

Faster Fulfillment, Smoother Pickup

Designed with both employee and customer satisfaction in mind

Designed for indoor or outdoor use, the system can accommodate large shopping carts, flatbeds and even full pallets. The retrieval system allows retailers to select security options, including physical and virtual locks. It can also stay refrigerated to accommodate perishable goods. When installed outside the store, it offers a 24-hour pickup option for added customer convenience.

QuickCollect CT shopping cart retrieval simplifies the pickup process for online, as well as will-call orders. Once an order is ready for pickup, the associate checks the order into the system. Then, it automatically sends the customer a text or email notifying them that their order is ready for pickup. Finally, the customer walks up to the QuickCollect CT terminal and scans their barcode or types in the unique code. In seconds, the unit identifies and releases the cart or flatbed containing their order.

Bell and Howell Service Solutions

Transforming business challenges into competitive advantages

Maximum uptime and availability starts here. From an extensive service footprint, 40,000+ parts at 40+ stocking locations, to the best service and support in the industry, we've got you covered. By combining turnkey project management, advanced analytics and flexible maintenance plans, you'll have the complete solution to ensure that your organization is running more efficient for longer.
