

Commander

Mighty performance. Smaller Footprint.

KEY FEATURES

- Letter and flat processing
- Modular design with configurations ranging from 0 up to 8 Insert Stations
- Office friendly: Small footprint and 110Vac single phase power requirement
- Primary sheet feeder with flat/folded accumulating and subset capability
- In-line feeder/folder for single sheet processing
- Quick changeover (non-automated)
- Sheet Feeder, insert station and Output Reading: OMR, 1D and 2D
- Insert stations that accommodate single sheets, books, cd's, stapled sets, plus common inserts such as return envelopes, brochures, etc.
- Insert station multiple feed functionality: Pre-set number of items fed from a single station
- In-line stapling functionality

Bell and Howell's Commander offers a simplified and reliable approach to automating your envelope inserting operation. This modular and flexible inserter is the ideal solution for office environments, small/mid-sized mail production operations, or supplementing large production environments.

The Commander is designed for easy set-up and quick changeover between jobs, enabling faster order turnaround and improved operational workflows. The multi-format workhorse enables businesses to dynamically process up to 6,000 pieces per hour, with a duty cycle of 500,000 per month.

A PERFECTLY CALCULATED STEPPING STONE

The Commander is targeted for those who are looking to add capacity to their current production line, augment their inserting operation from manual hand-filling or when one cannot justify the investment and footprint associated with higher-end production models.

Smaller footprint does not mean sacrificing efficiency, versatility and durability. Insert feeder are designed to handle a wide range of products including: single sheets, cards, reply envelopes, per-folded product, stapled sets, cd's and books.

The Commander uses a simple-to-use touch-screen console for quick setup, job programming and error messaging/recovery. Reading functionality enables

the processing of personalized packages including the matching of multiple inputs.

RELIABILITY AND SERVICE

Maximum uptime and availability starts here. From an extensive service footprint, 40,000+ parts at 40+ stocking locations, to the best service and support in the industry, we've got you covered 24/7/365. By combining turnkey project management, advanced analytics and flexible maintenance plans, you'll have the complete solution to ensure that your organization is running more efficient for longer.
