

Producer 250 and 400 DM Inserting Systems

Bell and Howell Producer Direct Mail Inserters yield the highest production with the fewest number of operators. It offers an array of productivity enhancements designed to reduce operating costs, optimize every machine cycle and automate the paper handling processes.

The Producer 250DM processes up to 16,000 letters per hour and 12,000 flats per hour, while the Producer 400DM processes primarily letters at speeds of 20,000 pieces per hour.

MODULARITY TO TAKE ON MORE FORMATS AND MORE JOBS

Process the broadest range of materials with the fewest number of machines and operators. Ensure speed and accuracy while processing complex direct mail formats like standard flat or pre-folded inserts, buck-slips, booklets, brochures, attached cards, end-folded documents, and many other unique applications.

The Producer DM family of insert feeders can include your choice of rotary, friction, shuttle, in-line feeder/folders, card affixers and specialty feeders. Enabling you to yield the highest possible performance and application flexibility.

The true in-line inserting approach allows for envelopes to feed in the same direction as the inserts and input channel, maximizing valuable floor space usage while improving operational workflows and efficiencies.

RELIABILITY AND SERVICE

Maximum uptime and availability starts here. From an extensive service footprint, 40,000+ parts at 40+ stocking locations, to the best service and support in the

KEY FEATURES

- Automatic rejection of collation errors increase productivity
- Yields a low cost per piece, dramatically increasing profit margins
- Feeder flexibility. Options include rotary, shuttle, friction, in-line folding, and specialty feeders to handle the widest range of material types common in Direct Mail
- A true "in-line" inserting process reduces rework and operator fatigue
- Designed for durability in a 24/7 production environment
- Low parts consumption providing increased machine availability with a low operating cost

industry, we've got you covered 24/7/365. By combining turnkey project management, advanced analytics and flexible maintenance plans, you'll have the complete solution to ensure that your organization is running more efficient for longer.

OPTIONAL FEATURES

- Ink-jet addressing, including read-and-print capability
- Insert and document matching and tracking

 250DM SPECS	
Base cycle speed (insertions/hr)	> 16,000 for letters > 12,000 for flats
Envelope sizes	Minimum: 4" x 7" (100 mm x 180 mm) Maximum: 10" x 13" (254 mm x 330 mm)

 400DM SPECS	
Base cycle speed (insertions/hr)	> 20,000 for letters > 18,000 for 6" x 9"
Envelope sizes	Minimum: 4" x 7" (100 mm x 180 mm) Maximum: 6.3" x 13" (160 mm x 330 mm)
