

# BH SNAP PACK PRESSURE SEAL SOLUTIONS

## Turnkey Self-mailer Solutions

Looking to expand your one-page mail operation with a faster, more efficient solution?

Bell and Howell's Snap Pack Pressure Seal portfolio is a complete suite of automated pressure seal systems. From low-volume desktop sealers to high-speed long-run sealers, these self-mailer solutions help print-and-mail operations consolidate production costs for one-page direct mail and transactional documents.

Our pressure seal systems use pre-treated, pressure sensitive cohesive paper, feeding into systems in either a cut-sheet or continuous format. Each automatically feeds, cuts, folds and seals the self-mailer to create a finished mail piece. These systems are ideal for production environments that process 12,000 to 50,000 pieces per hour.

Ensure document security for high-value pieces, like bank notices and tax forms, without sacrificing customization for your direct mail marketing.

### prestigeFOLD NET 38 1-Up High-Speed Pressure Sealer
