

CLEVERON 403

Automated Pickup Solution for Small-Format Stores

Compact in Nature, Powerful by Design:

The Cleveron 403 is a linear, compact automated package storage, pickup, and returns system. Perfect for delivering 20-200 packages-per-day, the Cleveron 403 enables retailers to cost-effectively automate manual processes as they scale their buy online pickup in-store program. From modular deployment concepts to expedited package induction and returns procedures, Cleveron 403 brings unprecedented benefits to retailers looking to introduce automation, expand their capabilities, and evolve their traditional retail environments with a modern, sleek solution.

How it works:

1. Customer places order online or via the retailer's app or web browser
2. Once order is ready for pickup, customer is notified via email or text with a unique pickup code
3. Customer scans their code and receives their order in less than 10 seconds

Key Features & Benefits

Automated pickup and returns for stores with smaller footprint

Improve the customer experience with package pickup in under 10 seconds

Mitigate inventory loss with a sleek, secure storage solution

The Cleveron 403 is compact, modular and efficiently automates the in-store package pickup and returns process, delivering a consistently fast and easy in-store pickup experience.

Cost-effectively Improve Your Customer's Pickup Experience

As customer adoption of online shopping continues to grow, retailers, grocers, and pharmacies across the country are embracing automated pickup services to cost-effectively serve more customers at the same time with an efficient, consistent, and unforgettable customer experience.

The Cleveron 403 simplifies and streamlines internal processes by enabling retailers to more effectively and securely store and manage inventory. The compact design reduces the time it takes to induct and retrieve packages to as little as 7 seconds. Customize the color and vinyl wrapping of your Cleveron 403 to promote your unique brand and marketing initiatives. The Cleveron 403's adaptable software easily integrates into your organization's API and OMS.
