

# *The Art of Easy* For Farm-to-Table Sales Growth

INCREASE YOUR PROFITS WHILE IMPROVING ACCESS TO YOUR GOODS

By providing a safe and convenient pickup option for your direct-to-consumer customers, you can offer 24/7 order pickup anywhere in your community. The QuickCollect GL is a temperature-controlled, food-safe locker systems that farmers, just like you, are using to revolutionize the way they distribute local, farm-fresh goods to their communities.

## **Goes Anywhere**

- Place at the farm or anywhere in town
- Put it outdoor or indoor
- Just need a solid surface, electricity, and internet

## **Easy to Operate**

- Installed and operational in one day
- Our "Farmers" software package is included
- Can be shared with other local farms or producers

## **Flexible to Meet Your Needs**

- Keeps food temperature safe, from frozen to warm
- Easily expands to accommodate growing demand
- Add partners at any time

*“The QuickCollect GL is a unique locker solution that helps us offer the safest and quickest method for families to get the highest quality meats, meals, and local goods”*

– Jason Mauck, CEO of Munsee Meats

According to the USDA, “The consumer demand for locally-produced food is creating jobs and opportunity throughout rural America for farms, businesses and entrepreneurs that store, process, market and distribute food locally and regionally. Farm and business opportunities continue to increase as the market share of local and regional foods grows.”

There are several federal financial programs that you can apply for:

#### **USDA Farmers Market Promotion Program**

The **QuickCollect GL** makes life easier for both you and your customers. Now, you can deliver farm-fresh goods to your customers when and where it's convenient for them, 24 hours a day, 7 days a week. Our system automatically notifies them when their order is ready to be picked up. All they do is scan a pickup code at the kiosk and retrieve their order!
