

LX FEEDER/FOLDER

Affordably Upgrade Your Existing Bell and Howell Mailstar Inserter

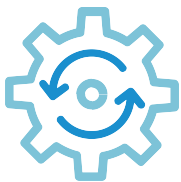

Benchmark for Intelligent Feeder/Folders

Designed for 24/7 production environments, Bell and Howell's LX Feeder/Folder (LX-FF) is the perfect solution to expand your production capabilities to meet customer demands and upgrade assets you may already have in your production line. If you have a Bell and Howell Mailstar inserter that is obsolete, no longer matches your needed configuration, or is just lacking the intelligence needed, why not invest in what you have? Bell and Howell's Mailstar inserters were designed to be modular. We upgrade your inserter

and simplify outdated configurations with a complete package with 100% OEM mechanical and electronic components. This solution is ideal for those who need quick-turn production jobs for small-to-large runs.

Key Features & Benefits

Reconfigure outdated Bell and Howell Mailstar inserters into a streamlined efficient cut-sheet system.

Increase your overall production capabilities with a robust, efficient sheet feeder (up-to 34K sheets/hr.)

Increase barcode reading capabilities with our industry-standard JETVision camera-based reading system

Bell and Howell's LX Feeder/Folder was designed to maximize ease-of-use and production processing capacity. The intuitive PLC touch screen makes it easier for operators to set-up, recall and program jobs.

Simplified to Maximize Efficiency and Processing Capabilities

The LX-FF uses a state-of-the-art servo motor to enhance document control and processing capability, up-to 34,000 sheets/hr. The LX-FF expands production lines paper sizes throughput capabilities, up to 14" forms. The folding capacity accommodates even the largest of document needs with up-to-8 pages letter folded and 12 pages half folded. The intuitive, PLC touch screen gives your operators the ability to input and

recall jobs with ease. The system has a host of resident integrity functions, selective inserting, sub-setting, feed-and-fold by read or non-read. Increase your machine's barcode reading capabilities with the seamless integration of the optional JETVision camera-based reading system.

Technical Specs Questions? Let a specialist know how we can help at bellhowell.net	► Sheet Feeder:	Up to 34,000/hr
	► Page Size:	Min: 8.5" x 11" Max: 8.5" x 14"
	► Folder:	Up to 8 Pages Letter Folded Up to 12 Pages Half Folded Sub Sets
	► Fold Types:	Half, Letter, Accordion and Quarter (Address Location Dependent)
	► Reading	3of9 2D Data Matrix OMR (with JETVision)
	► Optional	Product Matching Read to Print Output Verification

Bell and Howell Service Solutions

Transforming business challenges into competitive advantages

Maximum uptime and availability starts here. From an extensive service footprint, 40,000+ parts at 40+ stocking locations, to the best service and support in the industry, we've got you covered. By combining turnkey project management, advanced analytics and flexible maintenance plans, you'll have the complete solution to ensure that your organization is running more efficient for longer.
