

Bell and Howell OEM Service Solutions

**Highly-Customizable Service
and Support Packages to Meet
Any Unique Business Need**

**YOUR SINGLE-SOURCE SERVICE
PROVIDER TO SOLVE YOUR
TOUGHEST BUSINESS CHALLENGES**

For standard break-fix programs and workforce augmentation, to product refurbishing and parts logistic management programs, our OEM service solutions help solve your toughest service challenges without limiting your resources.

Workforce Augmentation

Our highly-skilled service engineers can act as an extension of your own team to help fill in gaps in your service and support operation.

Preventative Maintenance Programs

Cost-effective maintenance programs for any equipment, ensuring your business continues running smoothly. Choose from full-time to resident, on-call service and support to keep your equipment up and running.

Multi-Vendor Management Services

An experienced team coordinating all your OEM requirements, from maintenance and support to operator performance and training.

Turnkey Remote Monitoring Services

We connect to your equipment to monitor performance, remotely diagnose and even perform repairs in real-time.

Product Refurbishing Services

A variety of programs to breathe new life into your worn out and outdated equipment to keep your operation running longer and more efficient.

Project Management Service

Our dedicated project management teams provide end-to-end service, coordinating concept development, installs, software upgrades and training for a wide-range of technical solutions.

Parts Management Services

Nationwide parts inventory and logistics management. Maintain ownership of your parts and quickly access them with next-flight-out shipping.
