

PRODUCER 400EVO

Inserting System

High-Speed Inserter for Letters and Flats

Flexible processing for transactional mail

Bell and Howell's Producer 400EVO Transactional Mail Inserter is designed for flexible, high-speed processing of letter and flat applications. Built for 24/7 production environments, this inserter is operator-friendly and heavy-duty. Find simple and easy-to-use setup enhancements, like tool-less adjustments, for quick format and size changes by the operator.

With cycle speeds up to 25,000 per hour for letters and 8,000 per hour for flats, the Producer 400EVO will take your transactional

mail operation to the next level without sacrificing flexibility, integrity or cost per piece.

The Producer 400EVO offers high-speed continuous form and cut-sheet inputs, with a robust heavy-duty folder for high-page counts. Available features include the sub-setting for folded and flat applications, automatic fold plates, and a format turn allowing the operator to quickly change from flat to folded applications.

Key Features & Benefits

Robust cut sheet and continuous form input channels with heavy-duty folding

True "in-line" inserting process reduces rework and operator fatigue

Automatic rejection of collation errors in both the input channel and the base system

The Producer 400EVO will take your transactional mail operation to the next level without sacrificing flexibility, integrity or cost per piece.

Flexible Application

High performance for a variety of needs

The Producer family of insert feeders includes rotary, friction, shuttle, and specialty feeders. Enabling your operation to yield the highest possible performance and application flexibility.

The true in-line inserting approach allows for envelopes to feed in the same direction as the inserts and input channel, maximizing valuable floor space usage and improving operational efficiencies.

The Navigator™ system controller combines all the latest interactive technologies into a graphical user interface. Enabling

dramatic improvements in usability, operator and system productivity, reporting statistics and overall system management.

Optional Features

Customize your transactional mail solution

- Insert and document reading, matching and tracking using the Bell and Howell JETVision® advanced vision reading systems
- Ink-jet addressing with read-and-print capability
- Options for flat or on-edge envelope stacking with offsetting and tray tag printing
- Single and multichannel configurations available

<p>Technical Specs</p> <p>Questions?</p> <p>Let a specialist know how we can help at bellhowell.net</p>	▶ Base Cycle Speed (Insertions/hr):	Up to 25,000 for letters Up to 18,000 for 6" x 9" 8,000 per hour (with input channel)
	▶ Envelope Sizes:	4" x 7" (Min.) 10" x 13" (Max.)
	▶ Input Channel Choices:	High-speed cut sheet feeder: Up to 50,000 sheets per hour High-speed continuous form cutter: Up to 80,000 sheets per hour

Bell and Howell Service Solutions

Transforming business challenges into competitive advantages

Maximum uptime and availability starts here. From an extensive service footprint, 40,000+ parts at 40+ stocking locations, to the best service and support in the industry, we've got you covered. By combining turnkey project management, advanced analytics and flexible maintenance plans, you'll have the complete solution to ensure that your organization is running more efficient for longer.
