

BH SNAP PACK COLD GLUE SOLUTIONS

Turnkey Self-mailer Solutions for Small to Large Volumes

Looking to expand your single-function, one-page mailer operation with faster speeds and a smaller footprint?

Bell and Howell's Snap Pack Cold Glue portfolio is a comprehensive suite of automated folding systems for any environment. Choose from a variety of models to affordably and efficiently scale your direct or transaction mail operation.

Our family of Snap Pack Cold Glue sealers help eliminate costs of pressure-sensitive forms and expand production volumes. Enjoy fold versatility, such as 1-up and 2-up basic half and letter fold formats to complex C, V and Z fold formats.

Expand applications without sacrificing speeds with both horizontal and vertical orientations and dot, line or stitch glue patterns.

Configure your Snap Pack Cold Glue systems to utilize between 2 and 12 glue valves to meet any requirement, while expanding production volume by up to 50,000 forms/hr. Our systems are easy to clean, durable and fully-automated, with up to 20 pre-programmed fold applications to speed up job set-up.

Microgluer Cold Glue Folder System (4 and 8 Gun)
