

Top Reasons To Automate Prescription Storage and Pickup

IF YOU HAVE NOT AUTOMATED YOUR PRESCRIPTION STORAGE AND PICKUP PROCESS, HERE'S WHAT YOU'RE MISSING.

Pharmacies have become a critical component in delivering healthcare in today's world.

As the role of pharmacists continues to evolve, innovative automation technologies are freeing up pharmacy staff to focus on patients and delivering care.

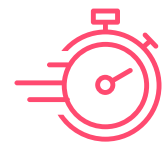

Here are some ways automating prescription storage and pickup benefits both pharmacies and patients.

Provide patients with a safer, contactless self-service experience

Automate routine tasks to reduce errors and inventory

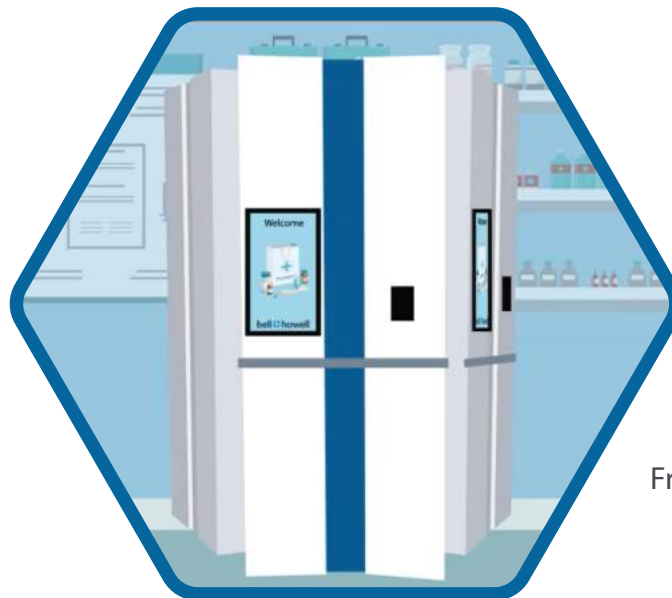

Eliminate long pharmacy lines and allow pickup in seconds

Extend pharmacy pickup hours without added staff

Free up pharmacy staff to focus on patient wellness programs

Reduce average costs by up to 5%
